SUMMARY

I am a Software Engineering HND student at the National Institute of Business Management (NIBM), with a strong interest in software development and emerging technologies. I enjoy creating practical solutions that solve real world problems and improve user experiences.

Through academic and personal projects, I have gained hands-on experience in web development, mobile application development, backend systems, databases, and IoT solutions. I have worked with technologies such as React.js, Next.js, Node.js, Laravel, Flutter, SQL, and MongoDB while developing different types of applications.

I am a quick learner who enjoys exploring new technologies, improving my programming skills, and working collaboratively with teams. I am currently looking for an internship opportunity where I can contribute my skills, gain industry experience, and grow as a software engineering professional.

EDUCATION

- **Higher National Diploma (HND) in Software Engineering (2025–Present)**
NIBM – National Institute of Business Management
- **Diploma in Software Engineering (2024)**
NIBM – National Institute of Business Management
- **Foundation Programme in Software Engineering (2022)**
NIBM – National Institute of Business Management
- **G.C.E. Advanced Level (2023)**
Technology Stream
- **G.C.E. Ordinary Level Examination (2021)**
Music (A), ICT (B), Geography (B) Sinhala (C), English (C), Science (C), History (C), Buddhism (C) Mathematics

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript, Dart, Python, PHP, SQL
- **Frontend:** HTML5, CSS3, Bootstrap, React.js, Next.js
- **Backend:** Node.js, Express.js, Laravel, REST APIs
- **Mobile:** Flutter, Android Development
- **Database:** MySQL, MongoDB, Firebase
- **Tools:** Git, GitHub, VS Code, Android Studio, Postman, Figma
- **Concepts:** OOP, SDLC, Agile, UML, UI/UX, Software Testing

PROJECT EXPERIENCE

Wadiya POS System | Full Stack Developer

Technologies: MongoDB, Express.js, React.js, Node.js

- Developed a full-stack Point of Sale system for business operations.
- Built responsive frontend interfaces using React.js.
- Developed backend APIs using Node.js and Express.js.
- Implemented inventory management and sales tracking features.
- Integrated MongoDB database for efficient data management.
- Added monthly sales prediction functionality for business insights.

AutoCare Mobile Application

Flutter Developer

Technologies: Flutter, Dart

- Developing a cross-platform roadside assistance application.
- Created a platform connecting vehicle owners with nearby mechanics and service providers.
- Designed user-friendly mobile interfaces using Flutter.
- Applied mobile development principles to improve user experience.

Alfa Community Smart IoT Solution

IoT Developer

Technologies: IoT

- Developed an IoT-based smart community solution.
- Worked on smart detection and safety-related concepts.
- Applied IoT technologies for automation and smart environment solutions.

Library Management System

Software Developer

Technologies: PHP, MySQL

- Developed a library management application with multiple modules.
- Implemented book management, member management, borrowing, returning, and reservation features.
- Designed database relationships and user management functionality.

SOFT SKILLS

- Problem Solving • Team Collaboration • Communication • Adaptability • Quick Learning • Time Management
- Attention to Detail • Creativity

EXPERIENCE

IT Society Member

- Participated in technical workshops and software development activities.
- Collaborated with students on technology-related projects.
- Improved teamwork, communication, and leadership skills.

LANGUAGES

- Sinhala
- English

CAREER INTERESTS

- Software Engineer Intern
- Full Stack Developer Intern
- Backend Developer Intern
- Flutter Developer Intern
- QA Engineer Intern | DevOps Intern
